Maybe even better than free.

Simply upload your file and share the link. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. You can upload any type of file (movies, music, documents, images, zip files and more). Our serviceis completely free for everyone. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. File is free to use with no gotchas andno hidden fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You don't need any special software installed to be able to download your files. filehosting provides an easy possibility for you to send large files to your friends. It is also allowed to link to the download page from websites and communities. No account or credit card is required to get started. So try our free and simple filehosting service now. Thereare no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. We have no file size limit. Keep yourfiles private, or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link toyour file. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using file canactually save you money. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer iscovered by your internet service or the data plan on your phone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also,many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying toupgrade your team chat service. Any file in any format can be uploaded and downloaded for free. You can give this download link to your friends by mail orinstant messenger. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
