Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand,using file can actually save you money. File is free to use with no gotchas and no hidden fees. It is also allowed to link to the download page from websites and communities. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Our service is completely free for everyone. We have no file size limit. You can give this download link to your friends by mail or instant messenger. You can upload anytype of file (movies, music, documents, images, zip files and more). Files transferred the old-fashioned way tend to pile up and be forgotten about, eventuallycosting you money in data storage fees. Keep your files private, or send your download links only to friends or family. Any file in any format can be uploadedand downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You don't need any special software installed to be able to download your files. There are no restrictions on the number of times a file can be downloaded. No account or credit card is required to get started. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. So try our free and simple filehosting service now. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and share the link. Using file, you can circumvent those limits without paying to upgrade
