Maybe even better than free.

So try our free and simple filehosting service now. Our service is completely free for everyone. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using file can actually save you money. You can give this download link to your friendsby mail or instant messenger. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: Whenyou share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Any file in any formatcan be uploaded and downloaded for free. It is also allowed to link to the download page from websites and communities. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your teamchat service. There are no restrictions on the number of times a file can be downloaded. No account or credit card is required to get started. When you use file,you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internet service or the data planon your phone. We have no file size limit. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides an easy possibility for you to send large files to your friends. File is free to use with no gotchas and no hidden fees. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Keep your files private, or send your download links only to friends or family. You don't need any special software installed to be able to download your files. You can upload any type of file (movies, music, documents, images, zip files and more). Simply upload your file and share the link.
