<u>Updated</u>: Thursday 10 June 2021

Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You don't need any special software installed to be able to download your files. There are no restrictions on the number of times a file can be downloaded. We have no file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to share your files with. Keep your files private, or send your download links only to friends or family. It is also allowed to link to the download page from websites and communities. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files can be downloaded from any computer from our high speed servers. So try our free and simple filehosting service now. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. No account or credit card is required to get started. You can give this download link to your friends by mail or instant messenger. Our service is completely free for everyone. When you use file, youavoid storing the file you're sending in your cloud storage or mail server. Using file, you can circumvent those limits without paying to upgrade your team chat service. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer orphone and our servers, then from our servers to your friends device. Unfortunately, we can't make that part free. File is free to use with no gotchas and nohidden fees. You can upload any type of file (movies, music, documents, images, zip files and more). Just upload the file you want to share with your f
