Unfortunately, we can't make that part free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Keep your files private, or send your download links only to friends or family. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can be uploaded and downloaded for free. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. No account or credit card is required to get started. There are no restrictions on the number of times a file can be downloaded. File is free to use with no gotchasand no hidden fees. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. So try our free and simple filehostingservice now. You can give this download link to your friends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. It is also allowed to link to the download page from websites and communities. This is easy, fast and reliable filehosting! You don't need anykind of premium-accounts. Simply upload your file and share the link. Just upload the file you want to share with your friends and we send you a download linkto your file. The cost of that data transfer is covered by your internet service or the data plan on your phone. We have no file size limit. You decid
