Maybe even better than free.

Keep your files private, or send your download links only to friends or family. So try our free and simple filehosting service now. Our service is completely free for everyone. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You can give this download link to your friends by mail or instant messenger. Just upload the file you want to share with your friends and we send you a download link to your file. No account or credit card is required to get started. File is free to use with no gotchas and no hidden fees. You don't need any special software installed to be able to download your files. Files can be downloaded from anycomputer from our high speed servers. The cost of that data transfer is covered by your internet service or the data plan on your phone. Simply upload your fileand share the link. You can upload any type of file (movies, music, documents, images, zip files and more). There are no restrictions on the number of times afile can be downloaded. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded anddownloaded for free.

Unfortunately, we can't make that part free. You decide who you want to share your files with. We have no file size limit. Files transferredthe old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Using file, you can circumvent those limits without paying to upgrade your team chat service. Alternatively you canchoose to share your download links on blogs, forums and social networking sites. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. filehosting provides an easy possibility for you tosend large files to your friends. If only we could, we surely would! On the other hand, using file can actually save you money. When you use file, you avoidstoring the file you're sending in your cloud storage or mail server.
