0 out of 5 stars The controls are misaligned with the control buttons on the camera and thus it is unreliable underwater. The shutter control arm will not activate the shutter if the zoom control is not exactly straight and the menu button essential for manual white balancing is very temperamental due to misalignment. Please do not buy this product. I say this as an underwater photography instructor. Please try again later. Please try again later. Watch The Repair Video It is an authentic item that is supplied directly by the original equipment manufacturer. The component is secured to the mowers deck to prevent the grass from shooting out. It is an identical replacement for a damaged or a missing shield trailing that was installed on a new unit. One durable plastic part is included.
