Select skin color, hair style, eye color, lip color, makeup, and then create a totally hip outfit. Once the Bratz character looks absolutely fabulous, it is time to select a bedroom style for her home screen. Then the real fun begins. As you gain popularity, youll receive text messages about upcoming events, and if you score enough points, you might even make the cover of Bratz Magazine. Play Test More complex than other plugin games, Bratz Life provides an endless source of entertainment. The game menu is simple to navigate and has loads of cute icons, including one that allows players to choose a music track. Girls can decorate their characters room, visit the juice bar to chat with friends, or take a trip to the salon for a makeover. Progress is recorded using meters, such as the Fashion Sense Meter and Popularity Meter. Although it is a nearperfect girls toy, Bratz Life has one minor design flaw. Multiple players can play separate games and save them, but only one person can play at a time, which slightly takes away from the competitive element. Despite this minor inconvenience, Bratz Life provides hours of silly play, encourages imagination and creativity, and lets little fashionistas live out their wildest dreams. The onscreen planner lets you keep track of your progress. The goal is to become a top fashion designer. You can fully customize your Bratz character. Whats in the Box One Bratz Life game console, AV cables, SD card slot, and remote control. Welcome to a day in the life of the Bratz. Now you too can enjoy the BratzLife by creating your very own Bratz character and becoming the next top fashion model. BratzLife will become a definitive category killer by allowing users to fully experience the girl play, attitude and lifestyle of the Bratz. Lisa 1.0 out of 5 stars The game was not of much interest to my girls, even though they like games such as the Sims. Remote must be pointed directly at the device for it to work at all. And as one or more other purchasers have stated, it really seems to teach young girls to be someone they are not in order to gain friends and popularity. But the WORST aspect of this toy is that it stopped working after the first use. When I tried turning the game back on the next day, it came on, but the picture was completely distorted and not correctable at all. Waste of time and money. If she forgets to turn it off, it's a huge waste of batteries. The only way to go are rechargeables. They need to have a plug for it. I KNOW that the Bratz are a little trashy looking, and not suitable for younger children but honestly this game is bad. WHAT IS WRONG WITH THIS PICTURE Last but not least ALL you do in the game, besides flirting with strangers and desperately trying to get someone to be your friend by saying things that they want to hear, all you do is dress your character and other Bratz characters OVER AND OVER AGAIN. Hey I like shopping and going to the salon as much as anyone, but really how many times can you change shoes and hair. When you run out of money to buy new clothing you do NOT even get a chance to earn more, UNLESS you are invited to a Fashion show and you win prize money. You will not be invited to shows though UNLESS YOU MAKE FRIENDS AND ARE POPULAR. My daughter, who is a Bratz fanatic, was bored with it after about 10 minutes. Use your money for the BBratz or any other toy. This really is a waste of money. OH! I rated the durability as high cause it's getting used as a pull toy by my 1 yr old and it still works.

We have tried replacing batteries and memory card, and nothing works. Although it was fun while it lasted, it is very cheaply made and not worth any amount of money. It is hard to navigate to pages, and it is not very good at interacting. You must read each screen to know what to do to get to the next area. All you can really do with this game is put clothes on the bratz. The visual quality is really bad. I would compare this game to paintshop on Windows 95. Don't waste your money on this item! The demand for the online interactive portion of this product was not in existence, so in essence the manufacturer sold a faulty product. They made promises regarding what their product would be and never met the expectations. This product was a waste of my money, time and caused a little girl sadness on Christmas morn. Now you can with Bratzlife. Just plug it into your TV and Bratzlife will take you into the totally glam world of fashion modeling. Create and customize your own styli Bratz Girl, and explore the Bratz universe travel to unique places, meet new friends, play music, design outfits and even model your creations. Show off fashion sense, try on clothes, accessories and more. Play GOT FIVE with very young people if you just want a super quick game; or play All Out if you want a little bit more excitement and challenge. There are two kinds of cards Character Cards which have large pictures of the Bratz on them. Each Character Card has a coloured circle at the top left corner, this is called an ICON. Event Cards which have instructions written on them. GOT FIVE! Game Rules GOT FIVE is a very simple game, for two to four players. You must try to collect five Bratz cards with matching ICONS whoever does this first wins. Set Up Give one character card to each player. Make sure that everyone has a different icon. Each player puts this starter card on the table in front of them. Shuffle the rest of the cards. Place the shuffled cards face down in the middle of the table.

<https://skazkina.com/ru/3wn6-manual>

This is the draw pile. Take the top card and put it face up beside the draw pile, this will be the throwaway pile The youngest player starts. Play goes clockwise round the table. Rules You can only play one card per turn. When Its Your Turn FIRST, Take a card from the top of the draw pile. THEN, If this cards icon is the same as the one on your starter card, put it down beside your starter card. If this cards icon is not the same as the one on your starter card, put it on the throwaway pile. The first

player to collect 5 matching icon cards WINS!!!! ALL OUT!!! Game Rules There are two ways to win ALL OUT EITHER be the first to get rid of all your cards, OR be the first to collect a set of ten cards with matching icons. Getting ready to play Shuffle all the cards together. Deal seven cards to each player. Put the rest of the cards face down in the middle of the table. This will be the draw pile. During play when a card has been used, put it face up beside the draw pile. This will be the discard pile. The youngest player starts and play goes round the table clockwise. Important Things to Remember A set is 3 or more up to 10 character cards with the same icon at the top left corner. You can have several sets, each with a different matching icon. Keep your sets in front of you. Event Cards can ALWAYS be played. It does not matter if there is no effect. So if your last card is an event card you simply play it in your turn and youve won, whether it DOES anything or not. What to do when its your turn Look at your hand and see whether you can play anything from it. You MUST play from your hand if. You can lay down a set 3 or more character cards with the same icon by putting those cards face up on the table in front of you. Then your turn is over. OR You can add one character card with a matching icon to any set already on the table. Then your turn is over.

<https://juanguillermocadena.com/images/7916-manual.pdf>

OR You can play an event card by putting it face up on top of the discard pile so that everyone can see it, and then following the instructions on it. Then your turn is over. If you cant play anything from your hand, you MUST try to play the top card of the draw pile Turn the top card of the draw pile over so that everybody can see it, and use it immediately If it is an event card, follow the instructions on it, then put it face up on the discard pile. Then your turn is over. If it is a character card, do one of the following 1. use it to make a new set with two matching icon cards from your own hand OR 2. add it to any existing matching icon set either yours or someone elses OR 3. if you cant make a set or add it to a set, put it face up on the discard pile. Then your turn is over. House Keeping If the draw pile runs out, shuffle the discard pile and put it face down to make a new draw pile. Most of the action is set in freetoroam 3D settings, including their grandmothers neighborhood and a carnival in the Adventure Universe. But players are occasionally pulled out of the area theyre currently exploring to play a variety of short minigames. That said, their behavior is actually quite commendable. Most missions see them helping animals and people, like one in which the player must find a carrot to feed a lost bunny, and another that has players throwing rubber ducks at a bully to get him to leave another kid alone. Some missions involve little more than running a quick errand in essence, moving a Bratz character from point A to point B while others, such as a dungeonlike maze filled with traps and secret bridge switches, require advanced problemsolving skills. Worsening matters, the game is buggy. The camera sometimes swings through walls and into buildings and objective markers occasionally fail to appear on the map. We even encountered one instance in which a required item simply disappeared, forcing us to quit the game and restart the mission. You can discuss the importance of being ready to lend a hand when people need your help but that you shouldnt help strangers unless your parents are with you and give their permission. The game may also spur a discussion about age appropriateness concerning makeup, accessories, and glamorous hairdos. Thank you for your support. Over the course of the next five years, the game was the most popular piece of content on Bratz.com. EKR's creative team ideated the game concept, architected the mechanics and produced an engaging piece of content.

Users create a virtual fish tank complete with custom decorations and colors. Fish are then chosen from the fish store and added to the tank. Come back often! The game tracks time even while you are not playing, and game players must keep their tank clean and their fish fed. Following approval of the proposed feature set, the designers went to work on creating concept sketches and wireframes to organize the user interface. Each illustration was created in harmony with Bratz branding standards. Users have complete control over decoration elements and colors of tanks. Additional supplies can be purchased in the virtual store included within the game mechanics. All of these features were custom programmed by the EKR development team. Users can view the pedigree chart of each fish.
